CIFIAL USA NEARLY DOUBLES IN SIZE

Company announces expansion to a new office and warehouse in Metro Atlanta

NORCROSS, Ga. (October 2008) -- Cifial USA, international plumbing and hardware manufacturer, has moved to a new warehouse and office center in Atlanta increasing its current space by over 19,000 square feet. Effective this month, the company's current relocation illustrates its growth and commitment to the greater Atlanta area, where it has been based for over 12 years.

"With the recent addition of new product lines such as Techno M3, Techno 25, Quadra 25, and Hexa, we rapidly began to outgrow our original warehouse space," said Cifial product manager Art Gambill. "By almost doubling our office and warehouse capacity, we are now prepared for additional product inventory and long-term growth."

Allowing for improved service, the company moved to a 5,000 square foot office and 36,000 square foot warehouse in Norcross at the beginning of October. Homeowner demand for fashionable, top quality plumbing products prompted Cifial to introduce multiple new products this year producing the need for more space. Cifial is dedicated to offering homeowners new products with stylish space saving options and reduced water flow to qualify for use in LEED compliant projects.

"Our investment into expanding our capabilities will allow us to service our new and existing customers more consistently and quickly. We will be able to commit fully to producing luxurious product lines and investing in water efficient products," said Dean Sever, marketing manager for Cifial.

The new warehouse and office are located at 6540 Peachtree Industrial Blvd. Suite A, Norcross, GA 30071. For more information about the Cifial USA's new location or products, call 800.528.4904 or visit www.cifialusa.com.

About CIFIAL USA:

Founded in Portugal in 1904, Cifial has over 100 years of plumbing and hardware manufacturing experience. One of only three true faucet manufacturers in the world, Cifial finds inspiration in the country's passion for design and its heritage of metalworking, Cifial utilizes state-of-the-art casting, forging, machining, and finishing technology to create high-quality product lines. Cifial's collections include faucets, custom shower components, bath accessories, interior and exterior door hardware, and cabinet hardware for residential and commercial uses. Cifial takes pride in being a pioneer in technology and design, and providing the finest quality, fit and finish on the market today. Cifial USA, based in Norcross, Ga., is the home of North American operations and distribution.
