

Cifial Elevates the Standard For Performance and Style with the Introduction of Two New Product Lines

ATLANTA (January 2009) – Homeowner demand for fashionable, top quality plumbing products prompts Cifial to introduce two new faucet lines. The Quadra 25 and Techno 25 by Cifial take contemporary design and product efficiency to the next level. Offering space saving options and reduced water flow these new faucet lines qualify for use in LEED compliant projects. They are a perfect complement to the company's existing Techno collection of faucets, custom shower components, and bath accessories.

“The Quadra 25 and Techno 25 have been proportionately scaled down in comparison to our other product lines in order to allow for greater use of space” says Jim Osborne, director of sales for Cifial. “In areas where space is sometimes at a premium - having additional design freedom without sacrificing function is very important.”

Measuring just over six inches in height both single handle lavatory faucet lines are ideally suited for living spaces with full bars, kitchen islands, or secondary bathrooms in finished basements. Each low flow faucet comes standard with a 1.5 gallon per minute (gpm) flow rate; a significant savings as compared to the industry standard of 2.2 gpm.

Three unique finishes are offered including polished chrome, satin nickel, and weathered. Both lines offer a Wall Mount lavatory faucet, Single Handle lavatory faucet, and Single Handle High-Profile lavatory faucet style.

Also making its debut is Cifial's single command lavatory faucet, which is part of the Techno M3 collection of faucets, shower systems, fittings and bath accessories. This modern faucet features a single control lever that can be mounted on the left or right depending on specific preferences. The Techno M3 collection is available in polished chrome, satin nickel and weathered finishes.

For more information about the Quadra 25, Techno 25 product lines, or other Cifial products, call 800.528.4904 or visit www.cifialusa.com.

About CIFIAL USA:

Founded in Portugal in 1904, Cifial has over 100 years of plumbing and hardware manufacturing experience. One of only three true faucet manufacturers in the world, Cifial finds inspiration in the country's passion for design and its heritage of metalworking, Cifial utilizes state-of-the-art casting, forging, machining, and finishing technology to create high-quality product lines. Cifial's collections include faucets, custom shower components, bath accessories, interior and exterior door hardware, and cabinet hardware for residential and commercial uses. Cifial takes pride in being a pioneer in technology and design, and providing the finest quality, fit and finish on the market today. Cifial USA, based in Norcross, Ga., is the home of North American operations and distribution.
