Slim, sophisticated shower

www.methven.biz

The very slim Satinjet Kiri shower has great appeal to both residential and commercial customers who are seeking an unobtrusive, yet sophisticated, showering solution that offers high performance and water conservation. Twin-jet technology; 3000 droplets per second and a wels 3-star rating. Suitable for all water pressures, users can be assured of maximizing their water and energy saving goals without compromising on their showering experience. **Methven**.

Large-capacity sinkware

www.oliverisinks.com

The 1100 series of professional-grade, large-capacity sinkware features heavy-duty, 16-gauge stainless steel. Fabricated with tight radius corners of 10 mm for a sharp design that's easy to clean. The minimalist look and large capacity basins are ideal for high-end and professional kitchens. Four basin sizes available; the largest has a big 23.4-gal capacity. All configurations come with Softtone undercoated soundproofing and include a basin protector and a drain basket. **Oliveri Sinks**.

Unique shower door glass

www.bascoshowerdoor.com

A new shower door glass pattern called Silk is ideal for homeowners who wish for some privacy while showering, but still desire the transparent and open feeling that a shower door provides. The introduction of this new glass option further enhances this manufacturer's ability to help homeowners create an elegant centerpiece of their bathroom. **Basco**.

Eco-friendly suite ads touch of elegance

www.deltafaucet.com

The Lahara bath suite enriches any home with its sleek lines and stark angles, while also satisfying the demand for a design-forward, water-efficient product offering. The lav faucets feature a 1.5-gpm aerator flow combined with a sleek, high arc spout to complement any décor. The smart water-delivery system maximizes water savings without sacrificing performance. Sleek, hi-arc spout coordinates with any home décor. Options include a single lav with optional 4" center escutcheon; two-handle 4" centerset; 4" mini-widespread; 6" to 16" widespread deck-mount faucets; Roman tubs; coordinating accessories; and a comprehensive shower offering. **Delta Faucet**.

Distinctive faucet collection

www.jado.com

Reminiscent of the radiant silhouette of a perfume bottle, the new illum collection of faucets and accessories has a subtly shifting shape -- a gentle flair from round to square -- that is harmonious with a range of styles for homes and distinctive hotels. Lavatory faucets feature a new technology that ensures the drain rod will always be a perfect fit, preventing the pop-up from becoming stuck in the closed position. Speed Connect simplifies installation with fewer parts and automotive-grade cable replacing the usual pivot and extension rod. **Jado**.

Elegant vessel filler

www.cifialusa.com

With a rich history stemming from deep within Portugal, this manufacturer is a leader in design and authenticity. One of the most elegant collections they offer is the Brookhaven, which includes the L-Spout Vessel Bowl Filler. The transitional design of the faucet provides both contemporary and traditional styling for any bath. All items in the collection are offered in eight distinct finishes and a choice of three unique handles. **Cifial**.

Multi-functional shower system

www.hansgrohe.com

The new, more stylish Raindance Connect turns the shower into a multi-function retreat. Available in chrome and brushed nickel; its innovative, patented, plug-in system and water-conducting showerpipe allows users to click the wand-like handshower into the bottom of the showerpipe to divert the water through the pipe into the showerhead. To use the handshower, simply click the device out of the showerpipe. Air-injection technology mixes air and water inside the showerhead to create voluminous, air-filled drops.

Hansgrohe.

Instant hot water dispensers

www.insinkerator.com

The new Series 2200 line of instant hot water dispensers consists of two traditional high-end faucet models: Country and Victorian. Country model fits well with farmhouse style kitchens and features a C spout with a decorative high arc and an overall country-inspired look. Victorian model features a unique L spout and is appropriate for any vintage-inspired kitchen or an eclectic and modern design mix. Both designs are available in hot/cool and hot-only water models. Models come standard with the F-201 filtration system to reduce chlorine taste and odor. **InSinkErator**.

Enhanced shower system

www.alsons.com

New square and oval models and a new "Mustang Red" color have been added to the IN2ITION lineup. The Mustang Red five-spray model received a Platinum adex Award in 2008. It is ergonomically designed; combines a hand-held shower with 4 or 5 spray settings, and a fixed shower head with an extra wide spray. Unique, 2-in-1 system provides option to use the hand-held shower or shower head separately or together for a full-body shower experience. **Alsons Corp**.

Stylish kitchen faucet

www.dornbracht.com

The Tara series has been taken to the next level with the introduction of Tara Ultra, a versatile collection designed especially for the kitchen. Styled with increased functionality for cooking and cleaning. Tall, slender spout has ample space for large pots and pans. New angular profile; includes an ergonomic lever handle and redesigned rectangular arm for the Profi models. Can be paired with rinsing spray and Profi sets. **Dornbracht**.
