kitchen and bath

← **TOP KNOBS** offers a new twist on the ubiquitous crystal drawer pull. Available in blue, burgundy, and clear crystal, these knobs resemble bezel-set sapphires, garnets, and diamonds. Their brushed-nickel settings give them a contemporary elegance. Use them to glam up a clean, contemporary bathroom or to introduce a playful note in a period kitchen. A more traditional faceted sphere rounds out the collection. Both styles are available in two sizes. www.topknobs.com

→ **CIFIAL USA**

Like an elegant sans serif font, the Brookhaven L-Spout Series from Cifial USA features gracefully tapering lines unobscured by finials and flourishes. In a Polished Nickel finish, this faucet would look perfect in a sleek modern bath; in Distressed Bronze, it would look quite at home in a rustic country kitchen. Available in a total of eight finishes and both three-hole and wall-mount configurations, the Brookhaven lever-style faucet is easily operated by those with arthritis or limited range of motion. Design Journal recognized the Brookhaven L-Spout series with a silver American Design Excellence award. www.cifialusa.com

↑ **RHEEM**

This may not look like a luxury bath amenity, but the Rheem 95 Series Tankless Water Heater is an absolute necessity. Imagine yourself stepping into your new shower, briefly enjoying the soothing spray of multiple jets, when suddenly the water goes cold....you've installed the wrong water heater! A tankless hot water heater provides endless hot water on demand, and the Rheem 95 series, with a flow rate of 9.5 gallons per minute, can support multiple body jets. For households with higher demand, multiple units can easily be linked together. Two models are available to accommodate indoor or outdoor installation. www.rheem.com

← **MAAX COLLECTION**

The iconic egg: clean, simple, curvy, cradling life within... the Viaggi freestanding bath from Maax Collection adopts this form and perches it atop a sculptural base of exotic wood. A bold and beautiful statement for your bath, the Viaggi also happens to be one of the most comfortable tubs on the market. At 70" x 36" x 25", it is both wider and longer than a standard 5-foot tub, and its body-hugging curves provide for a super-relaxing soak. Choose wenge, bamboo, or burl for the base. (Maax Collection displayed a solid-wood version of the tub on the exhibition floor. If we keep our fingers crossed, we may see it on the market someday!) www.maaxcollection.com
